PRE-K LITERACY+

Knowledge-Building Course: Building Expertise in Early Literacy

IMSE's Pre-K Literacy Plus Course provides strategies and tools to strengthen oral language, phonological awareness, and early print knowledge. Designed to complement any Pre-K classroom, it enhances daily routines to support early literacy development.

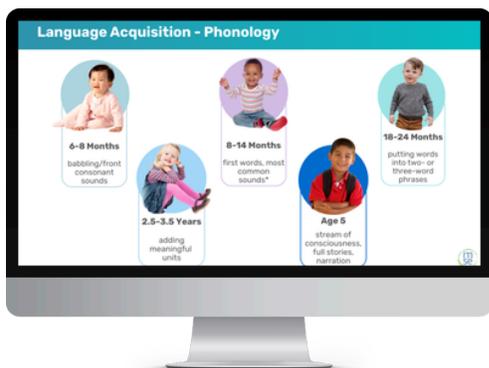

Strong Foundations: Laying the Groundwork for Lifelong Literacy

The Pre-K Literacy Plus Course builds all key early literacy skills—phonological awareness, alphabet knowledge, oral language, vocabulary, comprehension, and print concepts—while providing routines and assessments that help teachers deliver targeted, age-appropriate instruction for every learner.

Daily Routines: Planting the Seeds of Literacy Growth

Educators gain easy-to-use routines that fit naturally into the Pre-K day, strengthening letter-sound knowledge, phonological awareness, vocabulary, and comprehension through interactive read-alouds. Step-by-step guidance supports rich language, playful word exploration, and meaningful discussions to build strong foundations for success.

Grow Your Pre-K Expertise at Your Own Pace

IMSE's 13-hour Pre-K Literacy+ Course is fully online and self-paced, giving educators flexible access to research-based strategies, engaging modules, and a Certificate of Completion.

Key Components

This course features seven engaging modules designed to empower Pre-K educators:

Introduction: The Science of Early Literacy: Discover what the science of early literacy truly means, debunk common myths, and celebrate the pivotal role of Pre-K educators in shaping children's futures.

Let's Talk About It!: Gain a deep understanding of oral language, its five domains, and its critical role in learning while gaining practical strategies to support English Learners.

CEO of Language (YOU!): Learn how to create language-rich environments, foster high-quality conversations, and plan interactive read-alouds that strengthen vocabulary and communication.

The Magic of a Read-Aloud: Unlock the power of evidence-based read-alouds to grow speaking and listening skills, expand vocabulary, and foster inclusive, engaging language experiences for all learners.

Connecting Speech to Print: Explore developmentally appropriate routines that link spoken language to print, including phonological awareness and letter-sound instruction.

Emergent Writing: Support young writers by understanding the stages of writing development, embedding writing into daily routines, and fostering meaningful opportunities to share ideas on paper.

It Takes a Village: Partner with families to extend language and literacy beyond the classroom while effectively supporting children at risk of language difficulties.
